

## Lami-Air™ EQ System

**FACILITY:** Silver Cross Hospital  
**ARCHITECT:** RTKL | Chicago, IL  
**ENGINEER:** KJWW Engineering | Rock Island, IL  
**IMAGING:** SIEMENS Artis Zee Biplane Angio

### **H**IGHLIGHTS

This system epitomizes the notion that the ceiling “should look like it’s meant to be there”. This biplane system seamlessly integrates with the Precision Air Products ceiling to provide the best possible coverage. Our research in airflow directly impacts our designs to provide layouts that maximize airflow over the patient and maximize particle reduction.
